Dr. Faulkner, the world’s top botanist, has been kidnapped by the nefarious villain, the Destroyer, and his evil cybernetic robots. It’s up to Seek the Superhero and her cyborg sidekick, Vantage, to save the day!

Dr. Faulkner is being held on the top floor of Noble Tower. The Destroyer’s robots have swarmed the building and are on every floor. However, the access tunnels seem to be clear.

Vantage, DEFINE the situation for me.
Vantage, Let’s design a plan!

Seek, if you go through the access tunnels, you should be able to evade the robots until the top floor. Then you’ll just have to rescue Dr. Faulkner.

What if I crawled up the side of the building? If I crawl through a window, I may never have to even be seen by the robots.

Seek, you’d never be able to go through a window without alerting all the robots. Noble Tower has a state-of-the-art alarm system.

Okay, I’ll go through the access tunnels and fight off whatever robots are on the top floor. Sounds like fun. Let’s DO this!
I'm not sure, Seek! I'm reading one cybernetic pulse in the room, but I can't pinpoint it!

Vantage, where are the robots?
This was almost too easy... Wait, these ropes are made of Steel?

Too right you are! DESTROY!

Dr. Android! What have you done with the real Dr. Faulkner?

You'll never find him while I'm around! The Destroyer has plans for the good Doctor.
Vantage, can you find the real Dr. Faulkner?

Searching Now!

I've found his humanoid signature. He's one floor down. The access tunnel leads to the roof. Rescue him, and I'll have the hovercraft waiting for you.
Dr. Faulkner, I'm here to rescue you!
I think that went well. Although, next time, I should really be more cautious. Dr. Android had me fooled.

Next time, I will perform more thorough scans. And you needed an escape plan from the beginning. We're lucky the hovercraft got to you in time. That was very reckless, Seek—

Oh, Vantage, loosen up and live a little. The good Doctor was saved, thanks to your critical thinking and my problem solving.

A Special thanks to Dr. Faulkner for the use of his name and image

Dedicated to TDJB and TSC for their constant encouragement.

The real “Seek” to my “Vantage”

Define • Design • Do • Evaluate
I guess it's time for me to enter the playing field.

And Seek thought Dr. Android was a problem...
