“I love the atmosphere a Vol State! The campus is big enough to feel like a college, but small enough that you don't feel like just another face in the crowd. The teachers are personable and actually remember your name!”
—Breanne

Vol State Legacy

HISTORY

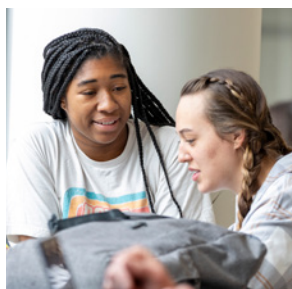

Volunteer State Community College (Vol State) began holding classes in 1971 in borrowed spaces around Sumner County while the permanent campus in **Gallatin** was being built. That campus officially opened in 1972, marking the beginning of Vol State's long-standing role in serving students in Middle Tennessee.

The Pioneers made their debut with Men's Basketball in 1971, setting in motion a legacy of fierce competition and championship wins. Other sports

followed soon after, including men's baseball and women's softball.

Over the decades, Vol State expanded beyond Gallatin, opening centers in **Livingston** (1991), **Springfield** (2011), and **Cookeville** (2016).

Today, the college serves 11 counties, offers over 120 programs, and remains dedicated to accessible education, community engagement, workforce development, and lifelong learning.

“For me, Volunteer State has been more than just a place to earn degrees—it’s a community where I can overcome challenges and work toward a brighter future.”

“There are some great teachers at this school. Everyone is extremely willing to go out of their way to help their students. Several of them even offered study sessions in their own homes! They really care about what they're teaching, and it shows (in your test scores!)”
—Candace
