

Entertainment Media Production combines several areas with the same purpose: to get students trained and plugged into the entertainment industry in Tennessee.

Tracks include concentrations in music production, music business, multimedia and web design, and video production. The Associate of Applied Science program is designed for the media workplace.

This a new concentration under the Entertainment Media Programs. It has been developed to include students interested in Radio, Announcing, Sports Commentary, Podcasting, or YouTube. This concentration will service their needs and provide training, practice and portfolio development through this curriculum.
