

Entertainment Media Production combines several areas with the same purpose: to get students trained and plugged into the entertainment industry in Tennessee.

Tracks include concentrations in music production, music business, multimedia and web design, and video production. The Associate of Applied Science program is designed for the media workplace.

This track prepares students for work in studios and with video industry companies. The subject areas include television and video production, digital video editing, and field production and lighting. Courses are designed to round out studio skills with conceptual knowledge while working in the Vol State television studio.

Recommended Semester	Class
Fall, Junior Year	ENGL 1010 - English Composition I
