Individual 2-year Total	20	60	\$ 10,615.50		\$ 8,582.75	\$ 2,032.75

Notes:

* The above "DE In-state fee" totals are based on the 2025-26 AY dual enrollment tuition maintenance fee schedule, which includes the above junior year rates. These rates are set by the Tennessee Board of Regents and the 2026-27 academic year rates are subject to change. For dual enrollment tuition rates, visit volstate.edu/tuition-fees and click on "Dual Enrollment Students"

* Some students may be eligible for dependent discounts based on parent/guardian employment.

* Initial MCS eligibility requires a final sophomore GPA of 3.0. Continued MCS eligibility requires that each college semester GPA is 3.0 or higher. See <https://www.collegefortn.org/middle-college/> for other eligibility requirements and additional information.

* Pre-Summer classes - The TSAC DEG will be used before students begin using the TSAC MCS, but not in the middle of the period that the MCS is used.

* Book costs and any other non-tuition costs such as unique course fees are the responsibility of the student and are not factored into the above totals. Visit <https://www.volstate.edu/financialaid/net-price-calculator> for more information about non-tuition/fee estimates.

* TSAC Dual Enrollment Grant information: <https://www.collegefortn.org/dualenrollment/>

* TSAC Middle College Scholarship information: <https://www.collegefortn.org/middle-college/>

* If a student loses eligibility for the TSAC MCS, they may have the option to pivot to the TSAC Dual Enrollment Grant or to pay out of pocket. Advising and cost estimates will be made available to students in this scenario.
