

II 01 13 OFF-CAMPUS INSTRUCTIONAL FACILITIES

Volunteer State Community College recognizes and supports the importance of facilitating student access to the academic programs offered by the College by providing both off-campus and technologically-delivered instruction and support services throughout the community and service area.

The College adheres to all policies established by the Tennessee Board of Regents (TBR), the Tennessee Higher Education Commission (THEC), and the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) in the establishment and governing of off-campus teaching sites as defined below.

Definitions

Off-Campus Center: An off-campus center is a location that is geographically apart from the main campus where students can enroll and complete academic programs. There must be a continuing administrative presence, evidenced by at least one full-time or part-time administrator housed on-site.

Off-Campus Site: An off-campus site is a physical space that is used to offer credit enrollment. Some examples of typical offerings at off-campus sites include: dual enrollment or dual credit offerings; workforce development opportunities; and short-term specific instructional needs. An off-campus site does not offer all courses necessary to complete an academic program.
