Helpful Hints

If you see a **weekly breakdown graph,** you are viewing a schedule that includes partial term courses. These courses only last a couple of weeks, and move through the material at a faster pace than the standard full-term courses.

Online: Asynchronous courses do not have Days & Locations.

Virtual Class: Synchronous online courses will have scheduled weekly live virtual class meetings.

Hybrid courses include a combination of instructional methods. This could be a combination of synchronous/ asynchronous, on-campus/ asynchronous, or on-campus/ synchronous. Pay close attention to the Days & Locations and Campus to know how to attend class.

Look at how many seats are open for each section. If you only see 1 or 2 seats remaining, you want to register quickly!

8. You have not registered yet!

You must click "**Register**" to enroll and secure your seat in the selected courses.
