

## Volunteer State Community College Veterinary Technology Program Observation Form

A requirement for application to the Veterinary Technology Program at Volunteer State Community College is 8 hours of observation in a clinical setting, under the supervision of a veterinarian or licensed veterinary medical technician.

We want applicants to see what practice is really like. The goal is to allow prospective students to make informed decisions about pursuing veterinary technology as a degree and a profession.

*For students that work or have worked in the veterinary field, please use the Veterinary Related Work Experience form instead.*

**Please complete the following and return to the applicant for submission.**

I acknowledge that \_\_\_\_\_ (applicant name) has spent at least 8 hours observing the veterinarians or credentialed veterinary technicians.

Name of Clinic: \_\_\_\_\_

Name of Veterinarian or Technician: \_\_\_\_\_

\_\_\_\_\_  
Signature of Veterinarian or Technician

\_\_\_\_\_  
Date

*This form is to be submitted with the Veterinary Technology application*
