

# WORK-BASED LEARNING

Work-Based Learning (WBL) allows students to earn academic credit while gaining valuable on-the-job experience. It bridges classroom knowledge with practical application through internships, case studies, workplace tours, interviews, and more.

## Students

- ✓ Earn college credit while gaining real-world job experience
- ✓ Build career skills and professional connections
- ✓ Open doors to future employment opportunities

## Employers

- ✓ Train and mentor future talent
- ✓ Strengthen your workforce and boost retention
- ✓ Partner with Vol State to shape tomorrow's professionals

WBL courses are offered during the fall, spring, and summer semesters. Placements are developed through collaboration between students, faculty, and employers to ensure it benefits all parties. In addition to traditional WBL opportunities, businesses may also participate by establishing registered apprenticeships through Vol State.
