OSHA OTI ED CENTER NEWSLETTER

2020

The OSHA Training Institute (OTI) Education Center at Vol State is one of 26 centers comprising a national network of non-profit organizations authorized by OSHA to deliver occupational safety and health training to public and private sector workers, supervisors, and employers.

Video Conference Courses Available

The OTI Education Center at Vol State is delivering courses through the

management system provided by

D2L|Brightspace, commonly known as

eLearn.

This platform is where connections are

made between students, faculty, and course materials.

eLearn provides a “Virtual Classroom”, a video conference platform within eLearn called

“Bongo”, which provides a seamless way to connect face-to-face.

OSHA #510 Video Conference Participants

10/19/2020

[OSHA #500 Trainer Course in OSHA Standards for Construction](#) begins 10/26/2020

Stand Down to Save Lives

2020 National Safety Stand-Down September 14-18

September 14-18

Fatalities caused by falls from elevation continue to be a leading cause of death for construction employees, accounting for 320 of the 1,008 construction fatalities recorded in 2018 (BLS data). **Those deaths were preventable.** The National Safety Stand-Down raises fall hazard awareness across the country in an effort to stop fall fatalities and injuries.

Addressing falls in construction is the reason why each year, the Occupational Safety and Health Administration (OSHA) holds a National Safety Stand-Down to prevent falls in the Construction industry. OSHA encourages employers to take a break to focus on safety concerns surrounding falls from elevation. Stand-down events provide employers and workers the opportunity to talk about hazards, protective methods, and the company's safety and health programs, goals, and expectations.

Last year, thousands of worksites participated in the campaign and the Stand-Down event reached over a million workers. OSHA invites employers to dedicate themselves yet again to the safety of their most valuable resource: their workers.

OSHA's Stand-Down [webpage](#) offers information on conducting a successful event, and educational resources. Employer

The National Safety Stand-Down is a joint effort between [OSHA](#), the [National Institute for Occupational Safety and Health](#), and [CPWR – The Center for Construction Research and Training](#).

To learn how you can participate in the Stand-Down, visit [www.osha.gov/StopFallsStandDown](#).
