Sucess Stories

RSH #9210 COVID-19 and OSHA Webinar

The RSH #9210 COVID-19 and OSHA Webinar took place on November 12th this past month. Joseph Hernandez, a new instructor with the OTI Ed Center at Vol State, was able to inform employers, supervisors, and workers different navigation routes for COVID-19 and it's hazards in the workplace. Participants were sent an anonymous survey after said the course would "help them perform their job better" and that they would recommend the course to others in their field.

Wanting to take the next RSH #9210 COVID-19 and OSHA webinar? Our next one will be taking place 1/19/2021. Register [here](#).

RSHOL #9505 Root Cause Analysis-Accidents & Injuries

The OTI Education Center at Vol State completed it's first asynchronous online course on 11/16/2020. This course will assist participants in delving further into the symptoms of an accident, near miss, or incident to determine the true cause (Root Cause) of the problem. This course will explain how to learn the most from accidents and near misses; and, how participants can contribute to an effective business improvement process. Two primary topics will be addressed the 5 Why's and Root Cause Analysis.

The next RSHOL #9505 Root Cause Analysis-Accidents & Injuries begins 3/22/2021. Click [here](#) to register.
