Tennessee Tales: Earthquake to Railroads - Author Bill Carey

Author and columnist Bill Carey details how, in the early 1800s, Middle Tennessee got the steamboat, the telegraph and the railroad -- all three of which turned everyone's life upside down!

September

22

The Impact of Music on my Life with James Story

Come hear Vol State's former music director and how reflecting on his own life experiences, he connects with his ancestors and discovers a commonality that captivates him - the use, love, and knowledge of music.

Check out: jamesstory.com for more information

September

29

The Creation of Modern China, Part 2: From Mao to Now -

VSCC Adj. Instructor Zachary McCullough

Continuation from the Spring lecture, examining how China transformed from a languishing empire into one of the most powerful nations, with a particular emphasis on the reforming of Mao Zedong's extreme policies and China's entry into the international community.

October

6

The Beauty behind Art with Claire Hampton

Art - It's not Rocket Science. But it is very human. Why do people make art? And how do they go about it? We'll explore a variety of topics and have some fun along the way.

October

13

Biotechnology in Medicine - VSCC Instructor Billy Dye, Ph.D.

We will discuss the application of biotechnology such as gene editing, monoclonal antibodies, and personalized genomics in new medical treatments.

October

20

Everyday Strategies for Living on the Lighter Side with Dr. Tom Cushman

We will learn about the structure of stress & anxiety and how that leads to 3 major practices that "SHUT DOWN" the stress/anxiety response. Then learn a few facts and figures regarding depression & the best steps to combat it.
