

## Summer 2022 Newsletter

### ***National Safety Stand-Down: To Prevent Falls in Construction***

*Fatalities caused by falls from elevation continue to be a leading cause of death for construction employees, accounting for 351 of the 1,008 construction fatalities recorded in 2020 (BLS data). Those deaths were preventable. The National Safety Stand-Down raises fall hazard awareness across the country in an effort to stop fall fatalities and injuries.*

**In an effort** to help stop injuries and deaths due to falls, Volunteer State Community College’s OTIEC hosted a one-day SAFETY STAND-DOWN EVENT on May 2, 2022. Each attendee received a Certificate of Participation and a free lunch. We would like to thank all of those who attended this event. OSHA Fall Protection courses were also offered that week at a discounted rate.

*Some of the Safety Stand-Down Participants*

### **The OTIEC at Volunteer State Community College Welcomes New Host Site**

VSCC OTIEC would like to welcome its newest OTIEC Host Training organization in Huntsville, Alabama! If you are in need of OSHA training in Alabama, check out the opportunities at the Huntsville Madison County Builders Association (HMCBA).

Below is a list of courses at HMCBA for the remainder of the year:

Title/Facility	Session	Dates ▲	Times CST	Days	Fee	Status
<a href="#">OSHA #502 Update for Construction Industry Outreach Trainers</a> : HMCBA Huntsville AL	Summer 2022	7/19/2022 7/21/2022	8:00 AM 5:00 PM	M Tu W	\$ 595	Registration Available

## Prevent Heat Illness at Work

**Outdoor** and **indoor** heat exposure can be dangerous.

### Employer Responsibility to Protect Workers during **EXTREME HEAT**

Under OSHA law, employers are responsible for providing workplaces free of known safety hazards. This includes protecting workers from extreme heat. An employer with workers exposed to high temperatures should establish a complete heat illness prevention program.

- Provide workers with water, rest and shade.
- Allow new or returning workers to gradually increase workloads and take more frequent breaks as they acclimatize or build a tolerance for working in the heat.
- Plan for emergencies and train workers on prevention.
- Monitor workers for signs of illness.
